TODAY'S BULLETIN. (BY TELEGRAPH) Episcopal jubilee of Pope Leo XIII celebrated throughout the Roman Catholic dioceses of the world... Blizzards and snowstorms again raging in Eastern States... Mrs. Odell Allen seeks divorce from her husband, a grandson of Commodore Vanderbilt... The Clan-na-Gael Society refuses to aid the home-rule fight... An important discovery for the manufacture of steel... Ex-Senator Spencer of Alabama dead... Spain afraid the United States will annex San Domingo... Woman dies from eating canned tomatoes.

IN AND ABOUT THE CITY. Another rumor to the effect that the Santa Fe is reaching toward San Francisco... How the visiting legislators passed Sunday... An interesting interview on the Panama Canal by a recent visitor... The Amateur Baseball League winds up in a row... The outlook for the coming races... A stranger who fell among thieves and was robbed... News from neighboring counties.

WEATHER INDICATIONS. For Southern California: Fair weather; stationary temperature; westerly winds. ARIZONA MEASURES. The Legislature Making Lots of Business for the Attorneys. Sparring the Sensibilities of the Eastern "Underfoot"-The Possibilities of Statehood-Reliance of the "Sack" to a Secondary Position.

PRIMEX (Ariz.), Feb. 18.-[Special.] If the seventeenth Legislature keeps up its present grist of law-making till the close of the session, Arizona attorneys will be obliged to take a day off and familiarize themselves with the code. Among the principal measures before the Legislature are the following: An act authorizing boards of supervisors to offer bounties for the killing of wild animals; an act to provide for the better government of the territorial prison; an act to require witnesses to enter into written recognizances in criminal cases; an act for promoting the purity and secrecy of the ballot; a bill providing for a maximum irrigation charge of \$1.25 per acre, and holding irrigation companies responsible for damages arising from failure to provide water; a bill compelling the office of the probate judge, county school superintendent, and other offices, to keep open at stated hours, under \$25 penalty for each violation; a bill to prohibit the holding of more than one office, to elective or appointive, by any individual at the same time; a bill for the levy of an occupation tax, including all classes of business and all professions; a bill taxing mining incomes, and 1 per cent. on the amount derived by all railroad, stage and other transportation companies and all telegraph companies excepting the company's private business.

A large number of less important bills are under way, and will probably be there when the session closes. THE TENDERFOOT'S FEELINGS. An amendment was offered by Representative Kelly of Cochise county on the bill to offer \$5000 reward for the possession of the renegade Apache Kid, dead or alive. Mr. Kelly objected to the phrase "dead or alive" on the ground that it was an offensive term to Eastern humanitarians. He believed the term should be softened. The amendment was changed to read, "to be taken in the most convenient manner possible," and also that "persons connected with the U. S. regular army are exempted from profiting by this proposition."

"GUNNY" SACKS WILL BE TENSE. An adjournment was taken till tomorrow (Monday), when the fight will begin in earnest. The railroad men and the canal men will be on hand with their gunny sacks, prepared to offer pay-trial suggestions against any "class" legislation tended to "cripple" their respective interests. Former Arizona legislators have left a record for thriftlessness which rather encourages the gold argument, but at each succeeding session the lobbyists have been compelled to "talk louder." In view, however, of approaching Statehood and the numerous emoluments attached thereto, it is pretty certain that the lawmakers will present a bristling battle to the enemy, instead of an itching palm.

HARMONY PREVAILS. The Governor's message, while issued to a two-thirds majority opposition, is being acted upon, and the outlook at present is harmonious between the executive and the legislative branches. The Governor is not considered lost in using his veto when he is "run up agin."

A BLOODY BATTLE. Between Revolutionists and Troops in PANAMA. Feb. 19.-[By the Associated Press.] News has just reached this city of an uprising in Ecuador which resulted in a bloody battle between the revolutionists and the government troops in the city of Esmeralda. No details have been received, but it is said the government forces were victorious. The entire province is declared in a state of siege, and more trouble is expected.

A Battle Looked For. VALPARAISO, Feb. 19.-[News of the invasion of Rio Grande do Sul by federalists yesterday is confirmed. The lines of communication have been cut, but it is confidently expected in Monte Video that a battle will be fought within the next day or two between the forces of Sariva and Castillistas near Santa Ana.

LEGISLATIVE BUSINESS. Efforts to Bring Up Riverside and Madera County. SACRAMENTO, Feb. 19.-[By the Associated Press.] A number of important bills will probably come up for consideration in the Legislature during the coming week. Efforts were made in the Assembly last week to bring up the Riverside Bill out of order, but proved futile, but according to the rule that on one day in each week each Assemblyman can have the privilege of bringing up one bill out of order, the Riverside and Madera bills will probably come before the houses.

THE WHITE METAL. A Secret Conference of Democratic Results in a Compromise Scheme. NEW YORK, Feb. 19.-[By the Associated Press.] A Washington special to the World says: An important step toward reopening the silver question before Congress was advised today at a secret conference held at the residence of Mr. Carlisle, the next Secretary of the Treasury. Representatives of both factions were present, and a free exchange of views as to the possibility of passing a compromise bill was given. A proposition, which did not come from the free silver men, was finally settled upon. The scheme is to suspend silver purchases under the Sherman act until seigniorage silver shall be sold at the rate of \$8,000,000 a month.

THE NORTHERN PACIFIC. President Oakes Takes Exception to the Committee's Report. NEW YORK, Feb. 19.-[By the Associated Press.] President Oakes, of the Northern Pacific Road, tonight issued an address calling attention to the circular accompanying the report of the committee appointed to investigate the affairs of the company. Mr. Oakes says: "Regarding the committee's report it will be seen that it is a mere object without any specific refutation or reply from the company. As the circular is made the occasion, however, for a request for proxies, I deem it my duty as president of the company to recommend all stockholders not to send them until they have received the statement, and until the board of directors shall have had an opportunity to expose the astonishing mistakes in the facts and figures which the committee made."

THE ENGLISH PUGILIST. He Says He Will Be on Hand Without Fail. NEW YORK, Feb. 19.-[By the Associated Press.] Charlie Mitchell made his appearance on the stage of the Standard Theater this evening at a benefit, and was enthusiastically received. He said: "I will not say what I can or will do in my coming encounter, but I will say I will be there without fail." Manager Brady said this evening that Corbett was pleased that arrangements had been perfected for a match. Judge Wallace, president of the Coney Island Athletic Club, announced that the club would make a bid for the match between Corbett and Mitchell at the proper time.

TOO HASTY WITH HIS GUN. A Sacramento Fireman Kills a Young Man. SACRAMENTO, Feb. 19.-About half past 10 tonight M. J. Houghton, living in the northern part of the city, heard a noise in the chicken house and on going out saw a group of men there. Some of them started to run and Houghton commenced to pump lead after them. Police officers went to investigate the shooting, and on examination of the premises one man was found dead with a bullet wound under the eye. He proved to be William Finn, a seventeen-year-old youth, who was arrested recently on suspicion of robbing a Chinaman. Houghton was locked in jail.

KANSAS POPULISTS. They Will Hurry Up to Pass All Their Bills. TOPEKA (Kan.), Feb. 19.-[By the Associated Press.] When the Populist House of Representatives meets tomorrow they will begin an attempt to pass all important measures before Thursday or Friday, so as to reach adjournment before the Supreme Court can pass upon the legality of its organization. The laws passed by the House and the Senate and signed by Gov. Lewelling can be invalidated only by the courts.

PHILADELPHIA, Feb. 19.-The report from Harqua Hala that the Bonanza mine, which is the largest in Arizona, has for some time been systematically robbed by Mexicans, is now a revealed fact. Hubbard, one of the owners, watched at the entrance one night and caught the first man, Chimala Granillo, with a full load of ore. The others ran back into the mine, unloaded and came out empty. The man was arrested, and is in jail at Yuma awaiting the grand jury's report.

A High Jumper. PHILADELPHIA, Feb. 19.-M. F. Sweeney, of the Xavier Athletic Club, champion running high jumper, broke the world's amateur in-door record to-night at the winter meeting of the Athletic Association of Pennsylvania. He cleared 6 feet 8 inches, breaking the recent record of 6 feet 2 inches.

THE TEMPORAL POWER. Resolutions Favoring Independence of the Holy See. NEW YORK, Feb. 19.-[By the Associated Press.] The fiftieth anniversary of the consecration of Leo XIII as a bishop of the Roman Catholic Church

CHURCH BELLS. Ring Out the Pope's Episcopal Jubilee. St. Peter's Cathedral Crowded With Thousands of Pilgrims. Spain Afraid the United States Will Annex San Domingo. Death of the Great German Banker Baron Bleichroder-Russian Poles and Two Women Arrested in Berlin.

By Telegram to The Times. (Rome, Feb. 19.-[By Cable and Associated Press.] At daybreak the pealing of church bells announced the celebration of the Pope's episcopal jubilee. By 4 o'clock thousands of pilgrims, tourists and citizens were crowded before the doors of St. Peter's. Two battalions of infantry in full uniform were drawn up before the cathedral ready to help the gens-d'armes in the preservation of order. The crowd swelled steadily, but remained quiet, despite the tremendous pressure caused by some 5000 ticket-holders in a hopeless struggle to get near the doors. At 6 o'clock the cathedral doors were opened and the foremost portion of the crowd swept in. Within half an hour the great building was packed to the steps with 30,000 pilgrims and 25,000 and 80,000 Catholics of this city, and no fewer than 40,000 persons were turned away by the military.

THE POPE GREETED WITH CHEERS. The Pope entered the cathedral at 9:45 a.m., pale but smiling, and, apparently, in somewhat better health than usual. The cathedral rang with tumultuous cheering as the Pope was borne toward the altar. His Holiness officiated at the special jubilee mass, intoning the opening words of the Te Deum, and giving his blessing in a clear, penetrating voice. The mass lasted until 10:45, but, apparently, did not fatigue His Holiness. He remained in the cathedral forty-five minutes after the celebration, and then proceeded to his apartments. The crowds then dispersed slowly.

THE PILGRIMS BLESSED. This afternoon the Irish pilgrims attended services in the Church of St. Sylvester, and were blessed by Cardinal Logue. The English pilgrims, at St. George's Church, received the blessing from Cardinal Vaughan. This evening, St. Peter's and all the other churches, all convents and hundreds of private houses are illuminated; the streets are thronged, and the square in front of St. Peter's is almost impassable. Without exception, however, the people are perfectly orderly. No arrests have been reported. King Humbert and Queen Marguerite took their usual drive through the city tonight. Were everywhere saluted respectfully.

A BRILLIANT SCENE. The scene at the cathedral was brilliant and impressive. The interior was hung in crimson and profusely dressed with flowers. The Pope was in full canonicals and was borne up the nave to the altar accompanied by a gorgeous procession of richly clad and jeweled cardinals and officers of the Swiss guards. The vigor of the Pope's movements during mass and the energy of his voice and gestures as he gave the blessing astonished the people.

FACTORS MET. The transparency before the Belgian College in Rome attracted a group of liberals, who shouted, "Long live Italy!" to which the Catholics replied, "Long live the Papacy!" There was a little excitement and the gens-d'armes removed the transparency. Otherwise nothing occurred to mar the peace and pleasure of the day.

SOLENN HIGH MASS. BALTIMORE (Md.), Feb. 19.-Cardinal Gibbons and all priests attached to the cathedral, Rev. Father Maguire, all the Sulpician fathers and seminarians in the seminary of St. Mary, together with an immense congregation, united today in the cathedral to hear solemn high mass, the occasion being to unite with the Holy Father in Rome in celebration of his elevation to the papacy. Cardinal Gibbons preached a sermon, dwelling principally upon the supremacy of the Pope.

Other Commemorative Services. PHILADELPHIA, Feb. 19.-The golden jubilee of Pope Leo XIII was celebrated at high mass in the cathedral today, and in all the Catholic churches in the diocese. NEW ORLEANS, Feb. 19.-The episcopal jubilee of His Holiness Pope Leo XIII was commemorated in every Catholic church in this city today. CINCINNATI, Feb. 19.-The episcopal jubilee of Pope Leo XIII was observed in all the Catholic churches of Cincinnati today. JERSEY CITY (N.J.), Feb. 19.-The Pope's jubilee concert took place at the Academy of Music in this city this afternoon, and was attended by many prominent priests and laymen from all the Catholic parishes of the diocese.

St. Paul, Feb. 19.-The jubilee of Pope Leo XIII was properly observed in this city at the cathedral, where Archbishop Ireland delivered an eloquent sermon appropriate to the occasion. VIENNA, Feb. 19.-The papal jubilee was celebrated in all the large Austrian cities today. SAN FRANCISCO, Feb. 19.-Special ceremonies were held at all the Catholic churches here today in commemoration of Pope Leo's elevation to the episcopate fifty years ago.

was celebrated by members of the Catholic Club today. Incidentally, or perhaps by design, a restoration of His Holiness to temporal power was made the keynote of the addresses, and was embodied in a resolution expressing the views of the club on that rather important question. Archbishop Corrigan was the principal speaker of the evening. The resolution adopted contained this paragraph: "In union with all loving children of Your Holiness in every nation, we desire to express the hope that the work of your long and glorious pontificate may yet be crowned with restoration to that temporal independence which belongs to the Holy See by right, as essential to justice, humanity and religion, and which has been earned again by the mighty achievements of Your Holiness in the cause of the people."

Afraid of Annexation. MADRID, Feb. 19.-[El Globo, commenting on the report current here that an American syndicate has acquired 500,000 acres of land on Samana Bay, San Domingo, urges the government to ask the powers interested to cooperate with Spain to oppose the American annexation of San Domingo. El Tiempo, in an article on the same subject, urges that Spain should join the triple alliance against France, as the latter country is supposed to be friendly to the United States.

Russian Poles Arrested. BERLIN, Feb. 19.-The police arrested on Friday ten Russian Poles, students in the university here, and two women. The charge against one of them is that he has published an exceptionally objectionable Anarchist pamphlet. The charges against the others are known only by the police. All the arrests are said to have been made at the instance of the Russian government.

Death of a Great Banker. BERLIN, Feb. 19.-Baron Bleichroder died at 1 o'clock this afternoon. He was the richest banker in Berlin, and one of the richest men in Germany. The fortune left by him is estimated at 100,000,000 marks, equal to about \$20,000,000.

THE "HERESY" LEADER. If Expelled He Will Form a New Church. NEW YORK, Feb. 19.-[By the Associated Press.] The Tribune will say in the morning: Dr. Charles S. Briggs returned from his trip to Cincinnati on Saturday. He was preceded by a statement that if the General Assembly decided against him, he and Prof. Smith of Cincinnati would secede and form a new church. Incidental to the project of the two "heresy" leaders, it is said they would command the influence and active support, respectively, of the Union Theological and Lane seminaries. They had that assurance, besides, that they would be supported by controlling majorities in the larger congregations in New York, Chicago, Cleveland and Cincinnati.

Mr. Briggs will not, at the present time, throw any light on the various rumors now being circulated. He would not deny the rumor nor would he confirm it, even when urged on the ground of great public interest in his plans.

CARLISLE'S MISSION. The President-elect is Awaiting the Senator's Return. LAKEWOOD (N. J.), Feb. 19.-[By the Associated Press.] It is said here tonight that Mr. Cleveland is waiting to hear from Senator Carlisle before making any further Cabinet announcements. Senator Carlisle left Saturday with instructions to interview a number of people, and, until he reports, there will be no news from Mr. Cleveland as to who will be the Attorney-General and Secretary of the Navy.

THE UNFILED PORTFOLIOS. NEW YORK, Feb. 19.-A Washington special to the Times says: Some friends of the President-elect, who believe they have received authentic information about the make-up of the entire Cabinet, are predicting tonight that the next Attorney-General will be George A. Jenks of Pennsylvania, and the next Secretary of the Navy John W. Russell of Massachusetts.

Letter Carriers' Association. NEW YORK, Feb. 19.-A meeting of the letter carriers of New York and neighboring towns was held this afternoon to hear the report on the Letter Carriers' Salary Bill from the Legislative Committee of the National Association of the Letter Carriers of America. John F. Walsh of Chicago reported every means had been taken to procure the aid of Congressmen favorable to the bill, and with decided success. In fact, except by accident, the passage of the bill is now an assured success.

VERY NAUGHTY. A Scion of the Vanderbilts Sued for Divorce. His Wife Charges Him With Having Been Guilty of Infidelity. An Important Discovery for the Manufacture of Steel. The Clan-na-Gael Refuses to Aid the Home-rule Fight-Amateur Athletes-Very Heavy Snowstorms.

By Telegram to The Times. NEW YORK, Feb. 19.-[By the Associated Press.] Harry Allen, grandson of Commodore Vanderbilt and son of Mrs. Daniel Allen, who is a sister of William K. Vanderbilt, is charged by his wife, Annie Odell Allen, with infidelity. On this charge she has applied for a divorce.

VALUABLE DISCOVERY. An Improvement That Eliminates the Bessemer Steel Process. ST. LOUIS, Feb. 19.-[By the Associated Press.] Benjamin Bazelle, a St. Louis man, has invented a process of steel manufacturing that, it is claimed, far eclipses the discovery of Bessemer, and will so reduce the cost of steel rails that they can, by its use, be sold at a good profit at one-half the present expense of making them. A company will be organized in this city, with a capital of \$1,000,000, to build a large plant in East St. Louis during the next three months to manufacture pig iron and steel by his process.

AID FOR HOME RULE. The Clan-na-Gael Refuses to Co-operate in the Scheme. CHICAGO, Feb. 19.-[By the Associated Press.] Two hundred Irishmen met here today and decided to give financial aid and help to carry on the home-rule fight. Judge Moran presided at the meeting. The meeting appointed a committee to confer with a meeting of the Clan-na-Gael, with a view to cooperation, but the Clan-na-Gael emphatically refused to receive the committee.

AMATEUR ATHLETES. They Will Have Championship Games at the World's Fair. NEW YORK, Feb. 19.-[By the Associated Press.] The World's Fair Tournament Committee of the Amateur Athletic Union met here tonight and arranged for championship games which will be a feature of the exhibition. Arrangements were made for a three days' athletic carnival on the Chicago baseball grounds on September 14, 15 and 16, open to amateurs of the world. The Executive Committee has been given power to arrange all matters, and open communication with athletes throughout the world.

Heavy Snowstorm. PITTSBURGH (Pa.), Feb. 19.-The worst storm in years is prevailing throughout Pennsylvania, Eastern Ohio and portions of West Virginia. It has been snowing for forty-eight hours, and from ten to fifteen inches now covers the ground. The wind is blowing a gale and the snow is drifting badly. All trains are late, but so far no accidents are reported.

CONGRESSIONAL MATTERS. An Extra Session of Congress Under Cleveland Possibility. WASHINGTON, Feb. 19.-[By the Associated Press.] The backward state of the appropriation bills lends serious interest to the remark of Senator Vilas, dropped yesterday, that there might be only a short interval between the adjournment of this Congress and the assembling of the next. There are two or three other matters still to come up in connection with the pending Sundry Civil Bill in the Senate. The Nicaragua Bill is unfinished business, and the Hawaiian treaty is to be disposed of in executive session.

The appropriation bills are also in a backward state in the House, owing largely to the debate over the Pension Appropriation Bill. Mr. Hatch is getting very restless over the delay in the Rules Committee on his request for a day for the Antislavery Bill, and it is almost certain that a move of some sort will be made by him this week.

Freight Engine Explodes. FORT WORTH (Tex.), Feb. 19.-A freight engine exploded in the Texas and Pacific yards this morning, one man being killed and five being badly injured, three fatally. John Miles, a negro was killed. The injured are: W. A. Ford, W. R. Barrett, H. E. Haden, T. M. Beards and Robert Thompson.

Destructive Flames. WEST NEWTON (Pa.), Feb. 19.-A fire broke out in Paul's furniture store at 1:30 o'clock this morning, and, before the flames could be subdued, destroyed eight buildings, and several residences are badly damaged. There were a number of narrow escapes, but no one was injured. Loss, \$40,000.

STORM-RIDDEN EAST

Terrible Gales Whirl Over New York City.

The Blinding Snow Prevents Pedestrians Walking in the Streets.

A Blizzard with Thunder and Lightning Raging in Pennsylvania.

The Ohio River Rising Again at the Rate of an Inch an Hour—The People are Abandoning Their Homes.

By Telegram to the Times.

New York, Feb. 19.—[By the Associated Press.] A storm broke over the city at 11 o'clock tonight. For a time it made things lively for pedestrians, who could not see more than a few feet ahead of them through the snow, which was whirled along on the wings of a gale blowing at the rate of forty miles an hour. It looked as if the long expected blizzard, brother to New York's visitor of 1888, had arrived. The wind is still blowing a gale, driving the snow in blinding sheets before it, and the temperature is falling rapidly.

TERRIBLE WEATHER.

Blizzards and Snowstorms Paralyze Business and Destroy Property. WILKESBARRE (Pa.), Feb. 19.—[By the Associated Press.] Tonight a terrific blizzard swept over this city and vicinity, accompanied by peals of thunder and blinding flashes of lightning. The wind blew forty miles an hour, and drove the snow before it in sheets. Pedestrians had serious difficulty in reaching places of safety. The wind worked havoc in exposed places about the city; signs were blown down, window glass shattered and telephone and telegraph wires prostrated. The storm has paralyzed traffic on the electric roads and all trains are running into the city late.

Occupants Flooded Out.

CINCINNATI (O.), Feb. 19.—The river has reached fifty-four feet one and one-half inches, and is rising an inch an hour. The flood at the mouth of Licking River, directly opposite Cincinnati, has driven out the occupants of some twenty-five or thirty houses on the banks.

Death of a Prominent Politician.

PITTSBURGH (Pa.), Feb. 19.—State Senator John N. Need died this morning of dropsy. Senator Need was a well-known journalist and one of the most influential politicians of the State.

Reorganization Failed.

New York, Feb. 19.—The receiver of the Manhattan Athletic Club today announced that all efforts to reorganize the club had failed, and he was determined to close the house and sell it.

Ex-United States Senator Dying.

WASHINGTON, Feb. 19.—George E. Spencer, ex-United States Senator from Alabama, died at 10 o'clock tonight at his rooms in this city of paralysis.

Death of an American Officer.

LANCASTER (Pa.), Feb. 19.—Major N. A. Hambricht, U.S.A., retired, died today from a cancerous affection. He was aged 74 years.

RAILROAD AFFAIRS.

Story About Another Santa Fe Scheme Up North.

Last Friday engineers started work in the vicinity of Lake Geneva, near the boundary line between San Francisco and San Mateo counties, running lines and setting grade stakes for a standard-gauge railroad projected to run from Twenty-fifth street and Potrero avenue to Halfmoon Bay, tapping Colma and San Pedro point. The Chronicle says:

The new road is known as the San Francisco and West Shore, and it is hinted by those who profess to know the inside workings of the new company that it is backed by the Atchison, Topeka and Santa Fe people, who will ultimately form a connection with it, and use the San Francisco end for the terminus of their system, which will be continued down to the junction with their main line at Mojave, and their southern California system. Whatever there may be in this statement, it is a fact that President Marvel of the Atchison, Topeka and Santa Fe, has been for some time looking into the scheme, and that work has been soon after commenced on the road. Local capitalists have shown their faith in the future of this road by backing it to the amount of \$1,000,000, and a trust deed to secure the bondholders was signed and delivered yesterday to the California Title Insurance and Trust Company, and other preliminary details were attended to.

Home.

The prince rides to the palace gates. And his eyes with tears are dim. For he thinks of the beggar maiden sweet Who may never wed with him. For home is where the heart is, In dwelling great and small. And there's a many a splendid palace That's never a home at all.

The woman comes to his little cot.

With a song when day is done, For his dearie is standing in the door And his children are waiting for him. For home is where the heart is, In dwellings great and small. And there's a many a stately mansion That's never a home at all.

Getting Ready for a Concert.

[Philadelphia Times.] "What a frightful noise your children are making upstairs in the nursery!" "Yes, they are having some fun with the music teacher, Prof. Krasinsky. You have to play at a concert to-day, and before he begins, he likes to have the children tumble his hair and otherwise pull him to pieces."

His Life.

Ted, the girl he married is worth \$100,000. Ned, from what I know of him they will be happy for about two years.

WESTERN DEFINITIONS OF "HONOR."

A Kansas Girl Wins the Newspaper Prize of Ten Dollars.

[Kansas City Times.] Miss Ethel Burns of Jewell City, Kan., is the winner of the prize of \$10 offered by the Times for the best definition of honor. This was decided yesterday by a committee consisting of Judge John F. Phillips, of the United States District Court; Rev. Dr. S. M. Neel, pastor of the Central Presbyterian Church; and Prof. Israel C. McNeill, assistant superintendent of the Kansas City public schools. The definition that won the prize follows:

"Honor is true nobleness of mind, distinguished by moral and physical courage, and scorn of meanness in thought or deed. Aside from the prize winner, the final list of definitions was made up as follows:

"The hidden spring in human nature to right action."

This was finally rejected because the judges thought that it lacked breadth, although it received long consideration.

"An instant and exalted sense of obligation, fearless of adverse criticism, scornful alike of reward or punishment."

This received favorable and earnest consideration at the hands of one of the judges, but the others did not like it.

"The undefinable loftiness of character which cannot entertain any thought of a compromise with evil that benefit may accrue."

Little time was given to this one. In the minds of the committee it lacked fluency.

"An underlying silent principle which prompts man to do right because it is right."

For half an hour two of the judges held out for the above, but the argument was that it was not right because it is right, it is hackneyed and worn out.

"That respect for self and that regard for the esteem of others which prompts man to practice those exalted virtues most admired by our race."

This did not find a warm champion in either of the committee and was quickly passed.

"Honor respects the rights of all creatures, never betrays a trust, nor takes advantage of ignorance, weakness or innocence."

"Living up to a conception of perfect life, charity, justice, and right, to all." This one lacked in fluency and was also incomplete.

"The pure gold of sentiment, the key note of chivalry, the white light of the soul."

While this was looked upon as being highly poetical, it lacked the directness required by the committee's agreed standard.

"The fortification of virtue and justice, the tie that binds the soul to truth and to duty."

Although this had a vigorous champion in one of the judges, it was decided upon as lacking in definiteness.

A STRANGE RECLUSE.

A Famous Checker Player, Whose Mother Severely Humiliated Him.

(Salem (O.) Special.)

Yesterday a checker player from the office of the New York World came here en route to Green, near this city, to play a game of checkers with Dr. Kimberly. Kimberly is now 50 years old, and for the last 30 years, although enjoying good health and all his physical and mental powers, he has never been outside his own home. The story is a strange one. When Kimberly was a youth of 20 years, he had a love affair with a girl to whom his people objected. He went with her to a dance one night, and in the midst of the pleasures of the ballroom, his mother appeared, and the scene and drove the young girl from his side. Dr. Kimberly was a youth of 20 years, he had a love affair with a girl to whom his people objected. He went with her to a dance one night, and in the midst of the pleasures of the ballroom, his mother appeared, and the scene and drove the young girl from his side.

Language of the Thumb.

[New York Tribune.] Two men got into an argument the other day over the expansion of steam in a cylinder. "Why," said one, "you don't know anything about machinery and the principles of mechanics. Your thumbs are not shaped right." He then went on to explain that a man with a thumb as thick as a thumb nail is a mechanical turn, while those with thick thumbs, broad at the ends, were natural-born machinists. "I never believed in physiognomy," he said, "but I do believe in thumbs. Now, thumbs have been appreciated ever since the world began. The ancients used to call the thumb the hand of honor. Barbarous kings used to swear and make compacts by their thumbs. In Rome it was a sign of favor to wring and kiss the thumb, or of disfavor to disgrace it by the thumb, or to turn them round. A man who was hurt in his thumb was excused from serving in the Roman wars. Some of the soundest citizens used to cut off their thumbs so as to remain home and get rich. Teachers used to punish their pupils by biting their thumbs. O, thumb, a big and influential member. I can look at the thumb of a young woman and describe her figure. I can tell whether she is thin and bony, or plump and round; whether her joints are large and ill-shaped, or small and perfectly proportioned. By examining a man's thumb I can tell what ought to be his vocation."

A Little Green Grave.

Sometimes when the sun climbs his farthest height, The sweet summer sunshine comes but a blight, For a little green grave slowly swims in my sight, And I sob in the dust of uncomfited night.

Sometimes, when the ripple of laughter runs through

All the world, it seems to me base and untrue; For a little green grave slowly swims in my view, And the saddest of teardrops my eyelids bedew.

And sometimes, when joy seems to girdle the ways,

My heart heaves a grief no repentance allays; For a little green grave slowly swims in my gaze, And nothing can gladden the desolate days.

Blonde, Presumably.

[Buffalo Inquirer.] A scientific exchange says that red hair is caused by a superabundance of iron in the blood. What color of hair is indicative of a superabundance of brass in the blood?

ARIZONA NEWS.

Rejoicing Over the Downpour of One Good Rain.

Needs to Become a City Owing to a New Railroad Into Nevada—Shipments of Sonora Oranges—Latest from the Coal Fields.

Special Correspondence of the Times. TUCSON, Feb. 17.—The delay in the coming of rain this season had caused intense anxiety to those interested in cattle and agriculture. Arizona was not nearly so blessed with rain as Southern California. But now it is different. The late storm was a grand one. All over the Territory it came, from an inch of rain in Tucson locality to four feet of snow (equalling four and one half inches of rain) in the mountains of Cochise. The Salt River, on which much depends, was recently at flood height. Even with the more rain soon the cattle interests are materially aided.

The number of cattle now being fed from the alfalfa fields of Salt River Valley is estimated at 35,000 to 50,000. Forty-nine carloads were shipped from Tempe last week, the selling price of which was \$26,000.

Of Arizona pluck the Gazette says: "Los Angeles advises, from private sources, are to the effect that the bitter two-year struggle between the cable and electric railroads there has practically culminated in a victory for the latter. Consolidation will soon take place, thereby perfecting one of the greatest street railway properties of the country. Not the least pleasant feature in this large achievement is the fact that a Phoenix man, Gen. M. H. Sherman, will control the combined system."

"Of course he must have had a certain innate genius for such work, but the Gazette ventures to imply that possibly this genius was not a little stimulated and strengthened by Gen. Sherman's humbler street car experience here, when the stolid mule motive power had to be generated by an infinite variety of kicks, blows and kaleidoscopic cuss words. A man who could keep our home street cars moving with pigmy, rabbit-eared donkeys as the only traction plant, must necessarily become able to wrestle with rapid transit in any form, whether by cable, electric, lunar attraction or occult Keely storage."

Latest advices from the new coal fields, sixty miles northwest of Flagstaff, are that twenty men are working there, developing little of which they yet been doing, sinking twenty feet, two veins of coal were discovered, and one little seam of about one-half inch in thickness. This was found nearest the surface. Beneath this was found a vein one foot in thickness, and still lower a vein three feet thick. The latter had been sent to Trinidad and were found to possess excellent coking qualities. There is already talk of building a railroad to these coal fields.

It is the intention to make Needles a city. Stock has been subscribed for a tunnel, and a tunnel is being built. An electric lighting system and an artificial ice plant will be completed at once, while plans for treating ores in every way are being considered. This is owing to its being a terminal of the Nevada Southern Railway, which will carry thirty miles of which have been purchased and will be placed along the roadbed by March 1. The road will open valuable mining properties in Southern Nevada, some of which are claimed to be identical in formation and character to that of Leadville.

Another case of didn't-know-it-was-loaded resulted in a tragedy of unusual sadness Friday morning. Inez Estrada and Christina Hernandez, two young women, about 20 years of age, who had been close friends from childhood, were soon over with Col. Spelman made a few remarks, and was followed very briefly by Assemblyman George F. Weeks of the Chronicle, and sailors that he thought them a very fine body of men, and that if there was any thing that he could do for them he proposed that he should do it. The women for the Assembly committee and for Col. Spelman, which were given with a will, and a feeling of great interest.

SAN DIEGO.

City Politics Attracting Attention of Sad Tragedy—Fugitive Flies.

Chinatown is ablaze with fireworks of all description. Eastern visitors are highly entertained watching the curiosities which are displayed on every hand in a talk through the streets. The Chinese New Year is the occasion of the festivities, and they will continue three or four days.

At last city politics are beginning to attract some interest. The Democratic and Republican City Central Committees have met and called a convention for February 28, and the Republican convention for March 2. A number of good men have been talked of for Mayor, but so far the canvass has not assumed shape so that any intelligent hazard of the probable outcome can be given. The magnificent salary of \$50 per year which San Diego voters have been talking of for Mayor, but so far the canvass has not assumed shape so that any intelligent hazard of the probable outcome can be given.

Senator Stephen M. White was royally entertained by his friends, but, non-partisan banquet given in his honor at the Hotel Florence last Thursday evening. The toasts began at 12 o'clock, and, as the checked fullman accepted the reservation made, and general information given upon appeal, the march of the morning was prolonged by the ruddy cast. Altogether it was a grand and successful affair.

Another pugilistic fiasco took place in Louis Overbaugh's (last Thursday) evening. The fight was between a local champion, Frazier came down here, and, for a consideration of \$250, proceeded to knock Billy Kaymer, a local aspirant for pugilistic fame, who had been defeated by a local champion, Frazier came down here, and, for a consideration of \$250, proceeded to knock Billy Kaymer, a local aspirant for pugilistic fame, who had been defeated by a local champion.

The Junior World's Fair will close next Monday evening, when an especially interesting entertainment will be given. The fair has been a great success, and has been instrumental in doing a vast amount of good in the way of informing visitors and tourists of the resources of our great back country. The fair has been especially a source of wonder and surprise, and had the effect of causing a wealthy lady in the El Cajon Valley to set out a large tract of land for the purpose of going into the raising of silk worms and spinning silk quite extensively.

Assemblyman G. D. McAdams, J. J. McElroy and H. T. Jacobson, members of the Assembly Committee on Military Affairs, arrived in this city last Friday on the evening train. Arrangements are being made for the committee to visit the various military and naval reservations, and to see the various military and naval reservations, and to see the various military and naval reservations.

## NEW STREET LAW.

## The Proposed Measure for the Changing of Grades.

## Present Status of the Bill Now Pending Before the Legislature.

## City Attorney McFarland Tells Why He Thinks It Should Pass.

## An Amendment Which Practically Destroys Its Utility—Strong Opposition Developed from San Francisco and Oakland.

A TIMES reporter called upon City Attorney McFarland yesterday to inquire as to the status of the bill which had been prepared and presented to the Legislature in relation to the change of grade of streets. Mr. McFarland stated that the bill which he had prepared had been amended in many respects, one of which he thought practically destroyed its utility, and that the amended bill had been reported on favorably in committee and stood pretty well up on the calendar in the Assembly, having been read the second time. Among the reasons given by Mr. McFarland why the bill should have been passed as he had prepared it were the following:

The present law was passed in San Francisco and passed in 1891, and is defective in many particulars. It provides that the City Council may give notice of its intention to change the grade of a street, and that the property-owners claiming damages by reason of the change of grade may present petitions or protests against the same, and that if the City Council is then of the opinion that the petitions present proper cases for damages, that they may appoint commissioners to estimate the same. This is in violation of the constitutional provision that no petition shall be taken or damages for public use without compensation being first paid the owner, which compensation shall be ascertained by a jury, unless waived. The new act has remedied this defect and provides that the Council shall appoint commissioners to estimate the damages whenever a claim is presented. The appointment of commissioners, of course, does not do away with the necessity of a jury trial, in case it is demanded, but their report is merely preliminary, and in most cases is accepted. A provision is inserted in the act in case the award of the commissioners is not accepted, the property-owners shall have a right to a trial by jury. The act of 1891 merely provides for the assessing upon a district of the damages done to private property by reason of a change of grade, and in no way provides for assessing upon the same or any other district the cost of doing the grading or regrading. The Vrooman act provides that the cost of grading or regrading a street may be assessed upon a district, but makes no provision for assessing upon the same or any other district the cost of damages done to private property by reason of a change of grade or the regrading of a street; consequently, if we attempt to grade a street which has already been graded in order to estimate, assess and collect damages caused to the property by such change of grade, we will have to proceed under the act of 1891; and then in order to assess the actual cost of doing the work in making the street conform to the new grade, we would have to proceed under the provisions of the Vrooman act, thereby necessitating two proceedings, two assessments, two collections and probably two sales. Therefore the act which has been drawn provides that whenever the City Council desires to change or modify the grade of a street, and at the same time after they have changed the grade of a street to have it regraded or resurfaced with other or different material, that they shall have that power. This is a wise provision, as in many cases after the grade of a street has been changed, the City Council desires to have it regraded or resurfaced with other or different material, that they shall have that power. This is a wise provision, as in many cases after the grade of a street has been changed, the City Council desires to have it regraded or resurfaced with other or different material, that they shall have that power.

Those who contemplate building should provide for construction for a Hot Air Furnace. For estimates of this kind of work call at F. E. Brown's, 314 S. Spring st., who makes this a specialty.

a strong opposition to the passage of the bill from both San Francisco and Oakland, both of which cities have had a bitter experience in being robbed by their commissioners for opening and widening streets, and they were apprehensive that this bill would leave a similar opening. In several commissions for opening and widening of streets in San Francisco, the expenses have amounted to from \$25,000 to \$40,000, one attorney being paid \$3000 fees in one proceeding. Consequently, a strong effort was made by the property-owners in those cities who have had such an experience to have the law for the opening and widening of streets repealed, and to prohibit any legislation which looked toward the appointment of a commission. An amendment to the bill was offered to the effect that the Council could not change the grade of any street without three-fourths of the property-owners to be affected by the grade should petition for the same, and that the petition should be signed by a majority of the property-owners to even have this changed so that it should only require the petition of one-half, in which shape the bill now stands. Mr. McFarland said he was of the opinion that this practically destroyed the utility of the bill, as the only cases in which it could be of any use were cases similar to the Temple and First-street cuts, where the change was made, not for the benefit of the property fronting upon the change, but for the benefit of the entire community, and upon the theory that the property immediately fronting upon the change of grade would be damaged, which damages should be paid to the owner. He stated that this provision, he did not think, would affect the First and Temple-street cuts, as the city could proceed under the proceedings already pending; but would practically prevent any proceedings being instituted of a similar character. He stated that another amendment was made to the bill that the Mayor, Street Superintendent and Engineer should constitute a board of permanent commissioners, who should inform all of the labor, and receive no compensation. This amendment, he thought, was all right. The only objection that he could see to the same being that the property-owners might desire to have wholly disinterested parties pass upon their damages, and parties other than those who are dependent upon votes for office. This bill was introduced by Mr. Pendleton, who, together with Mr. Bulla, as well as Assistant City Attorney Dunn, has assisted in crowding it through the committee. Mr. McFarland was of the opinion that the bill would pass if a persistent effort was made on the part of some one to crowd it along; but that if any indifference was manifested in regard to it, that the opposition which it has received from San Francisco and Oakland would defeat it.

TOXICITY of the liver, and disorders of the stomach and bowels, cause headache and the failure of all desire for food. Ayer's Cathartic Pills stimulate the action of the stomach, liver and bowels, cure headache, and restore the appetite.

## J. T. Sheward

113 & 115 N. Spring St.

It is a mistake for a merchant to raise the price on his goods after he gets a large run of custom. It is a mistake for any one to increase the price because he has it in his power. Many a man has lost his prestige by being greedy and avaricious. We have very largely increased the trade of this house, and have had but very little to say about prices. We have endeavored to impress the public with the one idea of good treatment, and have not disappointed them when they called. The prices have taken care of themselves. We have known all along they were as low as legitimate merchandising would permit, and could not see how any one could get below and prosper. And from the very large increase in trade we are satisfied the public are better judges than any flamboyant brag about low prices in other advertising. The new Dress Goods Department with one hundred feet of counter room, packed and jammed with new goods, is helping along with a large increase in trade. You may have samples if you desire them for comparison. Special values at 50c, 60c, 65c, cheaper grades 25, 30, 35 and 40 cents. Best we ever sold at the prices. Remember 100 feet of counter room for dress goods. Today all boys' suits \$2.00 each. Today new capes in the largest cloak department for \$5.00. They are all wool. Blazer jackets \$3.00, \$3.50, \$4.00. They too are all wool. Another 100 feet of counter room for the Domestic Department; 60 feet of counter room for linen. The trade is growing. It is the largest in the city. All over the house the crowds are nearly double over a year ago. Selling out shoes. You can save from 50 cents to \$2.00 a pair. Dollar corsets for 50 cents. Best values we ever offered in night gowns, \$1.00, \$1.25 and \$1.50.

Come in today. See the new ideas for spring, whether you purchase or not. You will get every attention. Largely increasing trade.

SPECIAL SALE OF Men's Pants and Boys' Clothing

## AT THE CHURCHES.

The Yorkshire Evangelist at Simpson Church.

Mr. Naylor's Opening Sermon Creates a Favorable Impression.

A Large Congregation at St. John's Episcopal Church.

An Eloquent Discourse by Dr. Leflingwell of Chicago—The Usual Services at the Church of the Unity—Pulpit and Pew.

Rev. Isaac Naylor, the Yorkshire evangelist, preached yesterday morning at Simpson Church to a congregation that nearly filled the lower auditorium. Mr. Naylor is a rapid, earnest speaker, full of dramatic action, and made a deep impression on his listeners. He has been engaged in evangelistic work for eleven years in England, and came to this country on a twelve months' vacation last June. He began preaching in Philadelphia with great success, and since that time has been almost constantly in the pulpit, holding meetings in various cities in the East. By advice of his physician he came to California, where he expects to remain till June, returning to England in the fall. Yesterday afternoon at 3 o'clock he spoke to the young people, and held a general service in the evening. He is full of the old-fashioned Methodist fire, zeal and enthusiasm. Services will be held each afternoon and evening this week, except Saturday.

ENGLISH LUTHERAN. Last evening at the English Lutheran Church, Eighth and Flower streets, the pastor, Rev. M. H. Stine, preached on "The Scene of Christ's Temptation." He opened his discourse by referring to the view from the Mount of the Temptation. "This mountain nature has posted, sentinel-like, on the edge of the Jordan Valley. It is a mountain of the Dead Sea stretching southward, quiet as a child in dreamless slumber. We see the Jordan rushing wildly, as if in conscious haste, to bury itself in its strange Dead Sea tomb. We look upon the dark mountain of Moab, from which Moses viewed the promised land, and Elijah was borne in the chariot of God to his home beyond the clouds. The Mount of Temptation lies north by west of the site of ancient Jericho. For centuries already it has been looked upon as the scene of Christ's temptation. From the Jordan, where Christ was baptized, and as far as the eye can reach, the mountain is less than half a day's journey. The wilderness of Sinai, which, some say, was the place of the temptation, is much farther away. There are caves in the mountain side placed here by the early Christians. The whole mountain side is littered with the bones of the rock hewn cells. The rains and storms of centuries have rendered some of them inaccessible. Many years ago lights, it is said, burned in every cave, causing the mountain to look like a starlight emittance.

"Even here these pious men could not escape the ill of life, nor the tempter's power. The evil one never abandoned a soul this side the pearly gates." Referring to Christ's temptation, the speaker said: "To say Christ did not suffer from the tempter is to deny the truth. Christ was baptized, and as a body wants are concerned, suffered just as much as you and I. The man in great hunger who never steals, suffers more from the temptation than the hungry thief. We cannot hope to escape temptation, but we can keep from falling. The dogs of this world and its temptations will not set upon their owners, but will attack pure strangers. So the devil tries his arts upon the pure rather than his sworn children."

CENTRAL METHODIST CHURCH. A spirit of zeal and enthusiasm seemed to pervade the services at Central Church yesterday. In response to special invitations sent out by the superintendent of the Sunday-school, J. A. Williams, there was a large increase in attendance. Mr. Williams, who sang "Is your light shining, my brother?" with such distinctness and meaning that it made a deep impression. Col. Ormsby of Iowa, a member of the International Sunday-school Board, gave an interesting talk at the close of the lesson study, and sang "Throw out the life line." The superintendent stated that within our field of work, as a Methodist Church, there are 2000 homes, representing 8000 people, to whom the church and Sunday-school may "throw out the life line."

The pastor, Rev. Francis M. Larkin, was greeted by a large audience at the 11 o'clock service, numbering many strangers in it. The subject of the discourse was: "Success, as illustrated in the Life of Nehemiah," the text being, "I am doing a great work, so that I cannot come down." The idea developed in the ruling purpose of Nehemiah's life, his belief in it, and that others were powerless to dissuade him from it. An earnest appeal was made at the close to the members of Central Church, to which responsive amens were uttered. Mr. Hall sang the offertory, and five persons were received into the church. There is a steady growth in this young church, sixty persons having united since the conference year last October.

ST. JOHN'S EPISCOPAL CHURCH. St. John's Episcopal Church on Adams street was crowded from the chancel to the doors yesterday morning, and extra chairs had to be brought in and placed in the aisles to accommodate the increasing congregation. The services were very hearty, and the singing strong and well balanced. There were eighteen boys, ten men and eight ladies vested in the usual choir garments. Rev. Dr. Leflingwell, editor of the Living Church of Chicago, preached an eloquent and well-delivered sermon from the text: "The fashion of this world passeth away." Mrs. Bloodgood sang a magnificent contralto solo as an offertory anthem. The music of St. John's Church is a strong factor in attracting worshippers, and it is doubtful if any church choir in Los Angeles in any way excels it.

CHURCH OF THE UNITY. Dr. Thompson's sermon yesterday morning was upon "The Sinless Christ," and was listened to by an overflowing congregation. The text was from Hebrews iv, 14-16, special stress being laid by the speaker upon the fifteenth verse: "For we have not an high priest which cannot be touched with the feeling of our infirmities; but was in all points tempted as we are, yet without sin."

In the evening Rev. William J. Potter, pastor of the Unitarian Church in New Bedford, Mass., lectured upon "The Earth and Sky in Religion."

TEMPLE STREET CHRISTIAN CHURCH. This church was filled with worshippers at the morning service, who listened to a sermon by the pastor, Rev. A. C. Smith, upon "Rebuilding the

Walls of Jerusalem." In his introductory he stated that he had found intense interest in reviewing the history of the captivity and return of the Jews, illustrating as it does the providence of God in dealing with this wonderful people. It was necessary to rebuild this wall in order to preserve their identity and to utilize them in the further preparation of the world for the coming of Christ. They were yet to impregnate Egypt, Greece and Rome with their doctrines. The rebuilding of the walls of Jerusalem was accomplished in the face of opposition, and in the face of a conspiracy of their enemies, the discouragements, penuriosities and indifference of many of the Jews.

The speaker then traced the analogies presented by this work to the establishment of the church. It was a great work, a necessary work, and the church has been the greatest movement of the world's history. Like the rebuilding of the walls the church has been inaugurated, and carries on its work under an invincible leader, Jesus Christ. It has been done in the face of the most inveterate opposition, the arch enemy of the race, the devil, ignorance, superstition, hypocrisy and every possible form of evil. Nothing less than a divine movement in human affairs could have endured what the church has undergone. In his work Nehemiah divides his forces and they built on different parts of the wall. The church is divided into its different fields of work—the Sunday-school, prayer-meeting, mission work, etc.—and thus the walls are built. Each family built on the wall in front of their house. The work of the church is carried on through families, the first divine institution. Like the Jews, the Christian builds with one hand on a tool, the other on a weapon. The Bible, the word of God, is a weapon that is irresistible. The rubbish was built into the walls. So God takes fallen, sinful man and builds him into the church, where he may become a living stone. Other striking analogies were presented by the speaker.

In the evening "Jacob's Vision" was the subject of the sermon.

CHINESE MISSION. The large room used by the Methodist Chinese Mission in Chinatown was crowded to its utmost limit last Saturday evening to attend the reception tendered by the Chinese pupils to the teachers and their friends, in honor of the Chinese New Year. The room was tastefully decorated with pepper bushes, bouquets of roses and other beautiful Chinese lilies. The program was in the hands of Chan Kuei Sing, and, after singing and prayer in Chinese by one of their number, he gave an address of welcome in behalf of the mission, in which he expressed thanks to the teachers for their work, and said that each year, he thought less and less of the Chinese New Year, and thought as they lived in a Christian land they should celebrate this holiday at the same time as our own citizens. He spoke of the confusion in business transactions and many other inconveniences, and closed with the beautiful thought that we might all live newer and better lives during the coming year. The members of the school gathered about the organ and sang a song in Chinese, after which Woo Kee Gate read an essay of his own composition, touchingly expressing his thankfulness for his Christian teaching. Woo Tong read the one hundred and fifteenth Psalm in English and Louis Sul gave a recitation and led in a song. Rev. Mr. Hagan, a returned missionary, was present in Chinese costume, and in a short address explained some of the manners and customs regarding this season in China. Dr. J. W. Campbell was present and made some pertinent remarks regarding the work in this city, after which a song was sung, in which the clear, tenor voice of Chan Kuei Sing, and many other voices, which many an American might covet, and at its close he announced that an active service would then take place, led by Woo Tom, Woo Tong, Woo Kee Gate and Chang Kam, and while the crowd was wondering what this service meant, they came forward with simple refreshments of cake, tea, and candles and all were made to feel especially welcome, for no people are more grateful for favors shown them than these Chinese, and their teachers have been handsomely remembered in the way of gifts during this, their holiday.

A WOMAN PREACHER. An Eastern exchange publishes the following concerning Rev. Florence Kollock, recently appointed assistant pastor of the Pasadena Universalist Church: "One of the students of Egyptology and Assyrian archaeology in the British Museum is a white haired American lady, the Rev. Florence Kollock, a regularly ordained minister in the Universalist Church. Miss Kollock resigned a church in Chicago, where she had successfully served in the office of pastor for thirteen years, for a period of study and travel in the Holy Land. It is within her province as pastor to help ordain and examine candidates for the ministry, to administer the sacraments, to perform the rites of baptism, burial, communion and marriage, and in the latter ceremony, he is said to her credit, the debateable word is ignored entirely. Only once during her thirteen years' pastorate in Chicago was she absent from her pulpit, and then on account of illness. On her return Miss Kollock takes charge of a large church in California."

PACIFIC GOSPEL UNION. The "family" of the Pacific Gospel Union gathered at the Sunday morning free breakfast tables yesterday morning numbered 206 hungry and destitute people, men, women and children, and there was more than enough food to satisfy them all. A. W. Hare conducted the gospel meeting, which serves as a "dessert" for the breakfast, and which is held in the hall above the breakfast room. Mr. Hare took as a basis for his address the parable of the rich man's supper, from St. Luke xiv, using as his text the 18th verse: "And they all with one consent began to make excuse." In response to the invitation six men rose for prayers and three men accepted Christ.

In the evening Maj. George Hilton, the superintendent, addressed a large audience in Gospel Hall from Prov. xiv, 6: "A wise man is strong, yea, a man of knowledge, increase his strength." Ignorance was vividly portrayed as the source of weakness, and spiritual strength to be gained from God and a knowledge of his word.

The music, which was especially attractive, consisted of solos by Miss Alice D. Westmell and Mrs. J. B. Brown and a duet by Mrs. Brown and Mr. Hare.

FIRST BAPTIST CHURCH. Rev. Dr. Read, of the First Baptist Church, preached a sermon defining his position on the Sunday-closing law, and giving his reasons for declining to comply with the request of the Woman's Christian Temperance Union to preach a sermon in confirmation of their petition, which they proposed to present to the Legislature, petitioning that body to pass a law compelling men to close their places of business on Sunday. Dr. Read took as his text the twenty-fifth verse of the twentieth chapter of Luke, "Render therefore

unto Caesar the things which be Caesar's, and unto God the things which be God's." Dr. Read, while declaring himself unequivocally in favor of a religious observance of the Sabbath, said he was opposed to the proposed law for the reason that he did not believe the State has a right to enforce religious duties, on which line he delivered an eloquent sermon.

PULPIT AND PEW. A meeting of the members of the Young Women's Christian Association is called for today at 2:30 o'clock p.m. in the parlor of the First Presbyterian Church. All members are expected to be present or send proxies.

Rev. F. V. Fisher has gone to Riverdale, Redlands and Arrowhead on a bicycle tour for his health. He is accompanied by Mr. and Mrs. F. E. Olds. Vincent Church is alive for aggressive movements. After the morning service a committee of ladies went forward to the chancel and received pledges for \$100 for a dollar social, to be held the 7th of March, at the residence of D. C. Cook, where they will relate their experience how they earned and saved it. Gentlemen to save and ladies to earn it. Bishop Goodsell dedicated the German Methodist Episcopal Church, on Pico street, yesterday afternoon.

The Epworth League convention begins Tuesday evening at the First Methodist Church. Rev. Burt Estes Howard preached a sermon especially to young men, last evening, from the text, "Whatsoever ye sow, that shall ye also reap." It was a pointed, practical talk—plain, honest and earnest—just such a helpful sermon as his health needs. The music was especially fine, the hymns and anthems according with the sentiment of the sermon, and had the ventilation been as good as sermon or songs, the service would have been ideal.

PETTY OFFENDERS. Work of the Police Yesterday—But Few Arrests.

The arrests and jailing of three drunks and two petty larcenists and the temporary detention of a little two-year-old boy who had been separated from his nurse were all that occurred yesterday to break the quietness and monotony of life around police headquarters during daylight yesterday. "Daylight" would be rather far fetched, however, in the case of James Payton, who was arrested about 3 o'clock in the morning riding a balky bicycle. Officer McKenzie regarded the circumstance as rather suspicious, as if the vehicle was the property of the rider, said rider should be better acquainted with the character and habits of his means of locomotion. Suspicion became more firmly fixed in the mind of the officer upon Payton's steed, bucking the rider off in the rider's effort to evade the officer, hence rider and steed were placed under arrest on suspicion, brought to the police station and detained.

At about 8 o'clock, R. H. Ford of Third and Main streets came to the police station to report the theft of his bicycle. The officer, who was to describe his property, and upon a description tallying with the one Payton was caught with, the property was handed over to Ford with the understanding that both himself and bicycle should be on hand when Payton's trial came up this morning in Justice Seaman's court.

Billy Reynolds, who has not been discharged from the chain gang very long, was brought to the station, together with a bundle of sacks he had stolen, Officer Whalen acting as conductor.

Billy had not seen able to meet a friend, and not having the requisite dime with which to secure a "cycloper," stole the sacks, and was in the act of bartering them for a bottle of red wine when the officer nabbed him.

Billy was regarded as a very good prisoner and worked well in the chain gang for about 40 days. The last stretch, in probability he will get his old billet after Justice Seaman's interview this morning.

Charley Ludwig, the little two-year-old boy, was recovered by his father soon after he had been brought to the station. This morning there will be a pretty good grid of petty cases in Justice Seaman's court, many holdovers being in the City Prison. Owing to the continuation of the Bentley examination, which will be resumed in Justice Seaman's court this morning, it is possible that Justice Austin will attend to some of the cases.

THE WHY AND WHEREFORE. "Good morning, Doc." "Well, well, Frank, you here too? Pleasant place, this park, isn't it? Sit down, have a cigar." Now it is in anything but a park, it is in a city street and have a cigar. The man who had run up against and addressed so unceremoniously as Doc, was none other than the medical fraternity of Los Angeles, and the proud, yet modest, possessor of a circle of friends as broad as the Chinese question.

"Practicing medicine yet, I suppose?" "No, not exactly. Got a better thing now." "Why, I thought you were doing well." "You're right. I was. Saw a chance to make money and jumped at the chance." "I see; but what is it?" "Short story. Dr. W. H. Hare, a Mexican woman knew native cure. Treated him. Cured him. She taught him how to treat medicine. He treated friends for friendship sake. Friends coaxed him to put on the market. Opened an office last November. Got twenty or thirty patients in about six weeks, when I made his acquaintance. Claimed he had several cures already. I investigated. Found it was true. Had carried my eye for years. Tried the medicine. Cured me in five weeks. Recognized the value of a cure for catarrh, and made him a business proposition. He accepted. Last month we opened five offices in Los Angeles National Bank building. Result—good business, see?" "Yes, but who is this lucky 'hammer'?" "Simpson, just George Simpson, without any M.D. attached, but he doctors catarrh to a finish just the same. He hasn't forgotten that old Mexican woman either. He's going down there before long to hunt her up if he gets an answer to his letter to Sonora that she is alive. Come up to the office and see us some day. Room 4 up stairs, First and Spring. Bank building. All right, but stay a minute, what flag are you sailing under, Simpson's Mexican Catarrh Company?" "Not exactly. It's Simpson's Mexican Catarrh cure all right enough, but our letter heads read simply 'Mexican Catarrh Cure Company.'"

I responded to his "adieu," and determined to tell his friends, through The Times, the why and wherefore of his new departure in business.

If you spy it And try it Then you'll buy it.

## VISITING LEGISLATORS.

The Committee Putting in Time on Military and Other Matters. The delegation of visiting legislators who arrived in the city on Saturday spent Sunday in the various ways their duties imposed upon them, the limited period allowed compelling them to put in every moment of their time looking up the matters in charge. The Reform School Investigation Committee have as yet only begun their labors, which will be continued today, when a number of witnesses will be examined, and a stenographic report made of all proceedings for use in making up the final report. The Military Committee will go north on the afternoon train as far as Fresno, and the others will follow later on, as they complete their work.

As all were gathered in the hotel lobby last night Senator-elect White and a party of friends strolled in, and a general hand-shaking or reunion occurred.

Youthful Fugitives Jailed. Leon Cavagna and his partner, Jimmy Donovan, who arrived from San Francisco a day or two ago, were arrested, together with Fred Galt, another street arab, last night by Detectives Aulse and Benson, and locked up for safe-keeping.

Young Cavagna, the officers were informed, had stolen \$20 from his grandfather in San Francisco, and it was discovered that he, with the Donovan boy, and many others who have found relief from constipation and sick headaches, G. W. Vincent, of 6 Terence Court, S. E. writes: "I am 60 years of age and have been troubled with constipation for 25 years. I was recently induced to try Joy's Vegetable Sarsaparilla. I recognized it at once as a herb that the Mexicans used to give us in the early days for bowel troubles. I bought it in 1929 and I know it would help me and it has. For the first time in years I can sleep well and my system is regular and in splendid condition. The old Mexican herbs in this remedy are a certain cure for constipation and bowel troubles." Ask for

## PASADENA.

## The New License Ordinance to Be Brought Up Today.

Current Happenings at the Hotels—Sunday's Budget of Local News—People Coming and Going—Brevities.

The following is a synopsis of the provisions of the new license ordinance, which will be submitted for passage at the meeting of the City Council today. What follows will doubtless be of interest to every business man in town:

For every bank or banking institution, \$10 per month; for every savings department of any bank, \$5 per month; money broker, \$5 per month; butcher shop or meat market, \$5 per month; peddler of meat, excepting licensed butcher, \$5 per month; undertaker, \$5 per month; "cheap John" stand, \$15 per month; water company furnishing water inside of the city, \$5 per month; gas company, \$20 per month; electric light company, \$20 per month; peddler of goods, wares and merchandise, (except vegetables, wood, fruits and hay) having no regular established place of business within the city, \$10 per month; for every peddler of hay, grain or wood, or either of them, having no regular or established place of business within the city, \$2 per month; for every artist, solicitor or agent of paintings, or retouching of pictures, \$2 per month; for every book agent, \$2 per month; for every shooting gallery within a building, \$1 per month; for every shooting gallery out of doors or in a tent, \$2 per month; for every pawnbroker, \$2 per month; for every hack, coach, omnibus or carriage engaged in hauling passengers for hire, \$2 per month; for every billiard and pool table except in private homes, \$2 per month; for every restaurant or lunch counter furnishing meals at irregular hours, \$2.50 per month; for real estate or insurance agent, \$5 per month; for every hotel, where rates per day are \$2 or over, \$3 per month; for every hotel where rates per day are less than \$2, \$2 per month; for every laundry or office for taking orders for laundry, or wagon used in delivering or taking orders for laundry work, \$2 per month; for every laundry or office in the city, \$2 per month; every photograph gallery, \$2 per month; every merry-go-round, \$10 per month; every produce counter, \$2 per month; every fruit stand or fruit wagon used in selling fruits on the street, \$1 per month; every fish peddler having no regular established place of business in the city, \$2 per month; every auctioneer, \$5 per month; every warehouse or storage house used in storing merchandise, \$1 per month; every telephone company, \$20 per month; every telegraph company, \$20 per month; every astrologer, seer or fortune teller, \$5 per month; for every bottling establishment, \$10 per month; every lumber yard, \$5 per month; for every store, shop or place of business engaged in selling or trading any kind of goods, wares and merchandise not hereinbefore specifically mentioned, \$2 per month; every circus, menagerie, or both, \$50 per day; every outside show to a circus, where separate admission is charged, \$5 per day; every traveling show, exhibition or other aggregation of objects offered for public exhibition, whether any admission fee is charged or not, not including shows, theaters or exhibitions in any opera house or hall, \$5 per day; every street car, \$5 per year; for every stock of auction goods brought to the city of Pasadena for the purpose of selling at public auction, \$15 per day; for every street vendor of medicines or any kind of notions or merchandise, \$3 per day.

Section 2 of the proposed ordinance provides that the foregoing rates shall not apply to nor be charged for sales of hay, grain, wood, fruits or vegetables if the seller shall furnish to the City Tax Collector his affidavit that the same were actually produced by him. Peddling shall include selling by order or by sample or taking orders for goods, or offers to sell or take orders. None of the provisions of this ordinance shall apply to sales made to merchants or persons having regular and established places of business within the city for the purpose of resale by them.

**THE COMING TENNIS TOURNAMENT.**

Some of the crack tennis players of town—mostly members of the Columbia Hill Tennis Club—are getting in trim for the midwinter tournament of the Southern California Tennis Association, which opens at Riverside on Wednesday. The tournament will be held on the courts of the Casa Blanca Club, and will continue four days. The events will include open singles, association doubles, mixed doubles and ladies' singles. There will be first and second prizes awarded in each event. Luncheon will be served each day. The courts will be open to the public. The tournament will be held on Thursday evening, February 23. Entries should be forwarded to Robert Bettner of Riverside, secretary of the association.

**RAYMOND CRIT CHASE.**

Henry W. Box, a prominent lawyer of Buffalo, N.Y., is with his wife and daughter enjoying the attractions of the Raymond Hotel. The many friends at the hotel of Miss Bella Gerstle will learn of her departure for San Francisco. During her long stay at the Raymond Miss Gerstle has entered heartily into all social festivities, for which she will be much missed in the future.

Among those who returned this week from Coronado were: Mrs. S. G. Wheatland, of Salem, Mass.; Wheatland is the widow of the Hon. Stephen G. Wheatland, ex-mayor of old New England city, the daughter of the late David Pingree, and the sister of David Pingree, who owns a portion of the famous Mt. Washington in New Hampshire. She is escorted by Beverly Rantoul, whose father, Hon. Robert S. Rantoul, is the present mayor of Salem.

Another very prominent Chicago representative who arrived at the Raymond this week was Eugene S. Pike, a retired capitalist, the owner of the Raymond Hotel, and a managing director of the First National Bank, the largest institution of its kind in the country. Mr. Pike is accompanied by his wife and two sons, Messrs. E. R. and W. W. Pike, and by Mrs. Pike's mother, Mrs. M. T. Russell, who is 90 years of age and who has the honor of being the oldest guest ever entertained at the Raymond.

Mr. and Mrs. Ben Ward were among yesterday's visitors.

This evening the guests of the hotel will have the privilege of hearing the first delivery in California of Rev. Henry G. Spaulding's finely illustrated lecture on "Our Italy." Mr. Spaulding has spent two winters in California, and has lectured he gives the results of his lectures and studies. The stereoscopic views are of exceptional beauty, presenting the varied scenery of Southern California, made famous in "Ramona," the scenic wonders of the Yosemite and the picturesque architecture of the old Spanish missions. Many painted views are used. The lecture has been enthusiastically received in the East and contains much matter which will be new and interesting to everybody in California. Mr. Spaulding's lecture on "Vegetus and Pompeii" given here and elsewhere a year ago in this vicinity will be pleasantly remembered.

**AT THE PAINTER.**

The latest entertainment at the Painter occurred Saturday evening, and consisted of a "penny party." Miss Johnson and Mr. D. L. Loraball constituted the committee of arrangements. Every one participating was handed a programme at one end of

which hung a penny, at the other a pencil. Every one had to decipher the figures on the penny as described by the questions. There were some ten questions for each side of the cent. Prizes were awarded to those guessing the largest number correctly.

**PASADENA BREVITIES.**

Visitors flocked to town by the hundreds yesterday.

Yesterday's overland arrived six hours behind time.

W. C. Stewart returned on Saturday from New York city.

The regular meeting night for the Chautauque was held last evening.

Co. B will hold a regular weekly drill at the Armory tonight.

There was an unusually large attendance at the churches yesterday.

City Council will meet in regular session at 9 o'clock this afternoon.

If you want good butter, that is good, you can find it at Nash Bros.

The capacities of the local liveries were taxed to their utmost yesterday.

Nash Bros., the cash grocers, report a very heavy business Saturday in their produce department.

The orange crop will be a large one in this vicinity, and the fruit is far above the ordinary.

The central office of the local telephone company will be moved to new quarters the early part of this week.

Anyone wishing to go East can have their fare paid to New Brunswick, N.J., by calling at Reynolds & Van Nuy's today.

E. C. Webster has returned from a business trip to Phoenix, Ariz. He reports everything flourishing in that vicinity.

Rev. Florence Kollock preached an eloquent sermon before a large audience at the Universalist Church yesterday morning.

An illustrated lecture on the life and times of Columbus and the World's Fair will be given at the tabernacle tomorrow evening.

Local traffic on both the Terminal and Santa Fe roads was heavy yesterday. Pasadena seems to be the present Mecca for tourists from all parts of the globe.

The Y.M.C.A. meeting at Strong's Hall was well attended yesterday afternoon.

The meeting was addressed by Rev. N. H. G. of the First Presbyterian Church.

W. E. Cooley left yesterday evening for Sacramento, en route for San Francisco, where he goes to accept a responsible appointment tendered him by Gov. Markham.

Dr. and Mrs. E. C. Skinner of New York city were in Pasadena Saturday, guests of the Balmoral Hotel, Pasadena, Monday.

Dr. Skinner is a prominent physician and health officer of the port of New York, and a physician of wide repute.

The Galen Institute will be represented at the Balmoral Hotel, Pasadena, Monday, Tuesday and Wednesday, February 20, 21, 22. Will return every two weeks. Thousands of cases of nervous and chronic diseases have been cured by their system of treatment in eleven years.

Plans are being considered for an elaborate social event to be given at Hotel Green on the evening of March 4, in honor of the inauguration of President Cleveland.

Late arrivals at the Hotel Green include: John E. Bleckman, Los Angeles; M. E. Berger, Cleveland; D. J. Johnson and wife, E. Nelson, Chicago; D. O'Neill and wife, Redondo; F. F. Barbour, San Francisco; J. C. Becker, Sierra Madre; H. H. Sinclair, Los Angeles; Charles L. Allen, Chicago; H. Powell, Ontario; Mrs. M. H. Hartley, child and nurse, Mr. and Mrs. Robert Harris, New York; C. F. Burnett, F. Green, Jr., E. L. Dow and wife, Oakland; Fred R. Kirk and wife, Evanston, Ill.

**SOUTH PASADENA.**

E. H. Rust has been elected a member of the Board of Trustees to fill the unexpired term of C. L. Moore, deceased, and was appointed a member of the Committee on Streets and Alleys.

This committee, backed by the board, is attempting to considerably improve the streets, four-inch macadam, and several scrapers and a lot of smaller implements have been purchased and are being put to use rapidly. Men and teams can be secured.

Plans are being made to work on Pasadena avenue in Lincoln Park, grading and graveling a strip of adobe which is almost impassable during the rains. Hermosa avenue will next receive the same treatment, and other streets are to follow. Mr. Barnard, of this committee, for the past few weeks has been devoting nearly half his time to the improvement of the city, and certainly deserves the thanks of our citizens for his efforts in behalf of good roads.

The Board of Trustees has passed an ordinance creating a Board of Health for South Pasadena, and will probably appoint its members at their next meeting. This has not been done on account of sickness in our midst, but was deemed the most practical way of stopping the nuisance now created by the Chinese laundry and effecting a general cleaning up in case the cholera should possibly chance this way next summer. The laundry water now runs along and across Mission street, saturating the ground with its filth, and the very slightly as well as malodorous. The new board is authorized to take legal steps to abate this nuisance, all Pacific attempts having failed.

The Board of Improvement held an adjourned meeting Friday evening, and one or two new members were received. Considerable business of preliminary discussion was had. One of the more important subjects reviewed was as to the reopening of the hotel building. It was said to be an all-day affair, and the board will probably be made of citizens for accommodations, but of the board houses are all full and many people have been turned away. Nothing was done on account of the cholera, but the necessity for prompt action in securing its opening was made manifest.

F. H. Longley and W. Wilson were appointed a committee to arrange suitable matter descriptive of South Pasadena, to learn the cost of printing the same on the backs of envelopes and on letter paper, to be used by residents in their Eastern correspondence and to advertise the town.

The committee on the question of planting shade trees was allowed until the next meeting to complete its investigation.

The board then adjourned until Monday evening, March 6.

**PELL BY THE WAYSIDE.**

A man who lost money, clothing and baggage at the station yesterday morning and complained that he had been robbed of all his earthly possessions, which consisted of a ticket to Kansas City, an overcoat, and several other articles of clothing. He said that he left San Diego the evening previous with his baggage and through ticket, and upon arriving in this city prepared to spend the night, as it was necessary to stop over in order to make direct connection to his destination. Later in the evening, thinking to while away some of the time which hung heavily on his hands, he wandered to a First street saloon and took several drinks. The next thing he remembered was waking up in a strange lodging-house in the morning, minus his money, ticket and clothes. Officer Ditewig started out to see what he could do for the man, and finally discovered the missing overcoat in a saloon, but obtained no trace of the ticket or money.

**DIED.**

FRANCK—February 19, Charles A. Franck, aged 19 months, son of G. W. and Lizzie Franck.

Funeral from residence, 318 South Alameda street, Monday, February 20, at 9 o'clock. Friends are cordially invited to attend the funeral.

**HOTEL MARLBOROUGH.** Colton, Ca. New management, strictly first-class. T. J. Habbell & Son, Proprietors.

## SAN BERNARDINO COUNTY.

## Populists Organizing New Orders Within the Party Lines.

The "National Industrial Legion" the Latest Association Worked Up—Riverside Wheelmen Declare Against Sunday Sport.

## SAN BERNARDINO.

The Populists are endeavoring to strengthen their party in this region by organizing "new orders" within the party. George D. Gillespie, State organizer of the National Industrial Legion, has been in the city working this order up, and at a meeting held last Saturday evening, first in the city and then in the county, with the following as the officers: Prof. N. A. Richardson, Captain; D. R. Stevens, Adjutant; Will Stevens, Recruiting Officer; J. S. Moore, Sentinel.

**THE TURNERS' CONVENTION.**

The Turnverein had a high time in this city yesterday, the convention of the deceased California chapter of the San Bernardino society. At 8 o'clock the society of this city met at the hall and went to the depot to meet delegates from Los Angeles, San Diego and Santa Ana. At 10 o'clock the meeting opened at Turner Hall, E. street, and a jolly good time was had. With one or two exceptions the members are all Germans.

**SAN BERNARDINO BREVITIES.**

The prohibitionists have concluded to hold a city convention on the 27th at Garner Hall.

"Homeland First" was the subject of the discourse of Rev. J. H. Jenkins, at the Congregational Church yesterday morning.

The religious services at the County Hospital yesterday afternoon were conducted by Rev. Lucas of Bethel Congregational Church.

Mrs. F. Hahn of Pasadena, daughter of R. P. Gahr and wife of this city, with whom she visited for a week, has returned to her home.

The preliminary hearing of John Wallace was held on Saturday afternoon before Justice Knox, who bound him over, with bonds at \$2500. Wallace, while drunk, shot a man in the thigh while in a saloon.

All natives of this city who are seen here, at least that is what the promoters of the game say. The game will be between the Jacoby Bros' team of Los Angeles and the San Bernardino team, at the corner of Fourth and D streets, at 7:30 this evening, to complete the organization of a Buckeye club.

**SAN BERNARDINO BREVITIES.**

The funeral of Mrs. Annie V. Campbell was held at the Presbyterian Church yesterday afternoon and was attended by a large number of friends. The interment was made in the cemetery at Olney, Ill., beside those of her husband, Maj. J. L. Campbell.

Next Wednesday there will be played in this city the best baseball game ever seen here, at least that is what the promoters of the game say. The game will be between the Jacoby Bros' team of Los Angeles and the San Bernardino team, at the corner of Fourth and D streets, at 7:30 this evening, to complete the organization of a Buckeye club.

**RIVERSIDE.**

The Riverside Wheelmen have voted that they, as a club, do not sanction and will not encourage any individual who is a member of the club as individuals in no way controlled by the club, and as a large number of the members approve of Sunday runs and some have little opportunity for riding except on Sunday, the practice of taking a spin on Sunday will continue in the same limited way as heretofore. A run was made to South Riverside yesterday.

**RIVERSIDE BREVITIES.**

G. Rouse is back from his business trip to the East.

J. A. Legg of Pontiac, Ill., is stopping at the Glenwood.

Mrs. George F. Bittlinger is very ill at the Light House.

Mrs. W. E. Louis has returned to San Francisco for a few days.

Ex-Gov. John P. St. John will speak at the Loring next Monday.

Oliverwood avenue is being graded through the Cuttle & Wilson addition.

H. King has returned to Paso Robles, after a short visit to this city.

Dr. Huff has removed to South Riverside, where he will reside in future.

Rev. J. F. Moody of South Riverside will occupy the pulpit at the Baptist Church today.

Work is to be begun at once upon the grading of Ninth and Tenth streets west of Walnut.

S. D. Lewis and wife, old friends of H. B. Everett, are in the city, his guests at the Arlington.

John Barnard has been sentenced to five days' imprisonment in the County Jail for stealing oranges.

Clarence H. Weed, of the Californian Magazine, San Francisco, is visiting this city, a guest of his father, Hampton Weed.

A large number of citizens visited Chautauque last week to witness the celebration of the New Year by the pigtail people.

In the 600-yard race Saturday afternoon for \$200 a side bet was made between Mike Julian, the former won in 31 1/2 seconds.

Rev. R. H. Hartley is continuing his Sunday evening lectures on the book of Revelations, the sixth one having been given last evening.

The average membership of Mrs. Le Beau's kindergarten school for the past four months was twenty pupils, and the average attendance 87 per cent.

Yesterday was the fifteenth anniversary of the bishopric of Pope Leo XIII, and special jubilee services were held in the Catholic Church, with the singing of Te Deum.

The Gage Canal is now cemented from the tunnel beyond East Riverside to the half a mile south of Eighth street, and White's addition and Cox's addition water companies have fresh supplies of water.

Messrs. Gilbert and Nevins Allen, two gentlemen of Arlington, and the Misses May, who recently came from England for the purpose, will be married at a double wedding in Los Angeles today.

In accordance with the State law governing such, the City School Trustees have advised that all children be vaccinated, at once by the family physician or the city health officer. Failing to conform to this request the children may be deprived from the public schools by the board.

**REDLANDS.**

There are those in this city who say that the health of the citizens is impaired by the dust from the streets, and maintain that the authorities can ill afford to permit this state of affairs to continue. The sprinkling of all the principal thoroughfares is urged. There can be no doubt about the dust injuring the health of the people, while all find it most disagreeable. If the city can not afford to have the streets sprinkled, the residents along the main streets should have it done by subscription.

**HOW IS IT?**

It is rumored upon pretty good authority that S. Craig has sold a half interest in the Citrotograph to John Campbell, late proprietor of the Territorial Enterprise, of Nevada City, Nev., recently suspended. It is said that the publication of a daily paper will be inaugurated in connection with the Citrotograph. It has been rumored that the new daily will not be in sympathy with the Bear Valley Irrigation Company, but this seems premature, as the policy of the paper is not yet fully determined, and there is little likelihood of its taking a stand against a corporation of such importance to Redlands.

**REDLANDS BREVITIES.**

Peaches and apricots are coming rapidly into bloom.

Myron Sherman is building a new residence in Lugonia.

A ten-acre tract is being set to oranges, by Dr. Riggs, in Lugonia.

Plans for the extension of the Oriental Aqueduct storm water ditch will be discussed.

## at the meeting of the city fathers next Wednesday night.

The handsome home to be built by City Trustee Glover, is in process of construction.

Dr. Ketchum, of Guthrie, Oklahoma, is visiting at the home of Mr. and Mrs. R. Waite.

A. B. Ament has been made manager of the Alessandro Orange Grove and Fruit Company, Mr. S. C. Harker, resigned.

Woodman's Hall was crowded again yesterday to hear Rev. Wells's sermon on "The Church in the New Day; Its Deeper Life."

Rev. Drs. Wood and McDonald of Boston began yesterday a series of revival meetings in the Methodist Episcopal Church. The meetings will continue each evening through the week.

## SANTA BARBARA COUNTY.

Meeting of the Teachers' Institute—Notes and News.

The meeting of the Teachers' Institute, Saturday, was opened with the reading of a series of papers presented at an Eastern educational convention, upon "The School of the Future." These papers, which were able and interesting, were not so satisfactory to the respective authors, as the condition of the nation and the state of the following was participated in by Mr. McDuffy, Rev. Philip Thacher, J. C. Hassinger, Rev. Mr. Wertz, Superintendent Thurmond, Rev. Mr. Wilson, James L. Barker and Mr. Knepper, of the Press. Mr. McDuffy unexpectedly threw a firebrand by arguing very eloquently for the idea, at some length, in opposition to manual training as a part of the public school training, and denying the claim made by the supporters of it that it promoted intellectual vigor, and would cure all the ills that permeated our public school system. Mr. McDuffy contended that manual training was a waste of time, and that it was not a part of the public school training, and would cure all the ills that permeated our public school system. Mr. McDuffy contended that manual training was a waste of time, and that it was not a part of the public school training, and would cure all the ills that permeated our public school system.

The prohibitionists have concluded to hold a city convention on the 27th at Garner Hall.

## ORANGE COUNTY.

## Sunday Closing of the World's Fair Discussed by Rev. Mr. Dye.

Some of the Reasons Why He Thinks the Exhibition Should Be Closed on the Sabbath—The Deputy Question—Personal.

## SANTA ANA.

For several weeks Rev. G. E. Dye, of the Baptist Church in this city, has been delivering a prelude to each of his Sunday evening sermons upon various topics, which are becoming prominent features of his services. Last evening he preached a twenty-minute Gospel sermon on "Grace Abundant," but preceding it he spoke earnestly of the closing of the World's Fair on Sunday. As this is a matter which, at the present time, is interesting to almost everybody, the following extracts are made from his remarks.

"It is a misfortune that the question of the opening of the World's Fair on Sunday should be agitated. It was the expressed condition of the national gift that it should remain closed on that day. It is, beyond all controversy, a fact that a vast majority of the people of the United States are opposed to Sunday opening. It will not do to try to belittle this fact by the declaration that they are bigots and fanatics, who wish to deprive other people of their rights and compel other people to adopt their ideas. Such statements are foolish and begging the question. Bigotry belongs as much to the selfish as to the religious. The opponents of Sunday-closing are not the most violent and foolish bigots. The fact remains that, despite the howlings of the mob, the largest body of intelligent, thoughtful, conservative patriotic and moral citizens of the land, the great bulk of the Christian church membership of the United States is opposed to Sunday opening. If it were the law of any honest trader, the most would dare go before the country opposed to closing the Columbian Exposition on Sunday. It would be snowed under so deep that it would be hard to find the church membership of America is entitled to respect on this vital matter."

**THE DEPUTY QUESTION.**

James G. Scarborough, Orange county's District Attorney, returned Saturday evening from Sacramento, where he has been for the past week endeavoring to solve the perplexing deputy question, which has been giving Orange county so much trouble, especially within the past few months. A conversation with Mr. Scarborough the reporter learned that in all probability the perplexing question would be solved before the present Legislature adjourns. This is a gratifying news to the residents of Orange county,

## CITY NEWS

## ACROSS THE ISTHMUS.

Impressions of a Trip Along the Line of the Panama Canal.

What Hon. J. D. McGregor, a Canadian Member of Parliament, Thinks of the Status of the Great Enterprise.

Hon. J. D. McGregor, member of the provincial Parliament from County Pictu, and G. F. McKey, a large iron and steel manufacturer of New Glasgow, N. S., who have been touring for the past two months, the last four weeks in Southern California, left last night for Fresno.

Messrs. McGregor and McKey left home immediately after Christmas, and on December 30 left New York in the steamship City of Para, bound for Aspinwall. The trip to Aspinwall was uneventful, inasmuch as the steamer touched at no place until arriving at her destination, going to the east of Cuba, but sighting several of the Bahamas. The trip was a very pleasant one, the gentlemen stated, taking just fifteen days out.

Arriving at Colon, a day was spent in visiting the great Panama Canal and viewing the machinery and works of that gigantic undertaking.

In view of the great scandal in connection with the building of the Panama Canal, the investigation of which was then attracting the attention of the civilized world, and which terminated in the conviction and sentence to penal institutions of several of the foremost promoters and financiers, and in Mr. McGregor's opinion, the greatest engineer that has ever lived, Ferdinand de Lesseps, these gentlemen made some careful studies of the scheme while on the ground, and talked with many people there directly and indirectly connected with the canal scheme.

Those interviewed regarded the investigation as a prosecution of these great promoters, brought about by political enemies and less successful promoters and financiers, who were jealous. That there had been money uselessly expended, even prodigal indulgence, was not denied, but this, they said, should not be charged up to the great promoters.

Mr. McGregor, in an interview said, regarding the canal scheme and that country:

"We visited that port of the city of Colon known as Colombo, which was built and occupied by the canal company. There are many fine residences that were built for the officials of the canal company, and hundreds of neat cottages for the employees, and on a peninsula are two elegant residences, extravagantly fitted up and handsomely furnished for Count Ferdinand de Lesseps and his son, Charles, costing over \$100,000 each. The streets of Colombo are beautifully laid out and shaded with palms, while tropical plants and shrubbery line the walks and fill the grounds.

"Along the dock at Colon are strewn thousands of great granite blocks lying around in confusion that cost upward of \$20 each and are useless.

"We were told that there were thousands of tons of steel and costly machinery buried in the sands of the lowlands adjoining the docks that had never been used—buried to get rid of it. But 7° north of the equator, the climate is hot, moist and very unhealthy, owing to a great extent to the rank vegetation, which grows very fast, and decomposes quite as quickly, producing a continual stench, especially during fogs, which prevail.

"The history of this Isthmus country is one of robbery, murder and pestilence. Of a population of probably seven or eight thousand, there is a very small percentage of what could be termed respectable. The greater number are of the ignorant, illiterate, vicious classes of low-born white renegades, negroes, Chinese, and in fact of all nations, the population being cosmopolitan in the broadest sense.

"Colon has suffered many times by general conflagrations and the numerous foundations with the attendant piles of bricks and mortar make unsightly spectacles and as there is little effort to clean up the debris they act as a catch-all for much filth.

"There is a noticeable feature—the horses and mules—which are universally small and half-starved; the people have very much the same appearance, and in addition display little pride and neatness.

"Tropical trees abound, shading the streets and overrunning the vacant grounds, while flowers of the most brilliant hues and strongest odors abound on every hand. Palm and cocoanut trees are used as shade trees along the walks, the latter growing to perfection, while bananas grow in almost every portion of the city and surrounding country, the fruit selling at from 5 to 10 cents a bunch.

"There are some very good mercantile establishments, conducted mostly by Americans, French, Spanish and Chinese. Absolute free trade exists in everything, excepting intoxicating li-

quors, and of course everything is very cheap as we discovered when replenishing our wardrobes, purchasing clothing for less than would be asked in New York or at home. There are no banks there, hence as the currency of the United States of Colombia is greatly depreciated in value, American gold being held at 75 cents premium, and other coins in common use, causes every merchant to become a money broker, which is quite a business of itself.

"When we took the railroad train for Panama, we expected to find on the way a mixture of desert and rough mountains, but we were mistaken. First the country was swampy jungle, then through seemingly impenetrable pampas grass levels, wooded hills and heavy growths of tropical vegetation; the scene was as varied as interesting.

"The railway is forty-seven miles in length, although the passage across the isthmus is less than thirty miles as the crow flies. The greatest elevation the road attains is less than 200 feet, and the highest point along the railway line is less than 300 feet.

"The great canal almost parallels the railway, crossing it twice. About one-half the distance of the canal's course between the two oceans will be along the bed of the Chagres River, which, when widened and straightened, will be utilized. Whenever we came within sight of the river we saw the banks and bed of the stream flanked with immense dredging machines and other machinery, while numerous spurs and side tracks were filled with engines, construction cars and machinery and supplies—all unused, while numerous warehouses and sheds are filled with other supplies and machinery. This machinery is kept in condition, however, and the warehouses and other buildings are kept painted and in repair, which involves a monthly expenditure of about \$30,000 to officials in charge and employees.

"On the higher lands along the line of work the neat cottages for officers and employees all owned by the canal company, the laborers being of the lowest element, who are lazy and vicious, and for the most part live on yams and bananas, and fish when they are not too lazy.

"I do not care to express an opinion as to the practicability of the great canal, even should it be completed, that would be to speculate, to say the least.

"Our trip from Panama to San Diego, on the steamship San José, was one continual round of pleasure. We touched at Corinto, La Libertad, San José de Guatemala, Acapulco and San Blas, and then went to Riverside, from whence we radiated in every direction for three weeks, coming to Los Angeles three days ago. We go now to Fresno, then to San Francisco, and about March 1 start for home, visiting Salt Lake City, Denver, Omaha, Cedar Rapids, St. Paul, Chicago and Washington.

"Yes, California is a great State, and has a bright future before her. I have an interest in an orange grove, acquired two years ago, at Riverside.

"We intend to return to California, with a party next time, McKey and I; we will make the same trip we have just taken—as far as this, at least.

The Names on the Card.

The names that are checked on a card, tra-la, Have little to do with the case, For the checking of names is not very hard.

Though the fellow that checked them perhaps should be tarred, And lose on common sense his place, Where his qualification is "face."

And that's what I mean when I say—oh I sing.

Please bother Jim Rea for his venomous sting.

Tra-la-la-la-la-la, tra-la-la-la-la. Jim Rea is a funny young thing.

While we're talking of rascals, Jim Rea is a judge.

As all his associates know; But the names on his cards they are clearly for fudge.

And the pre of his anger runs mostly to smudge.

As the sequence will certainly show, Oh, Rea is a pansy, you know.

And that's what I mean when I fervently chant.

Rea's talk of his bribes is probably cant; Tra-la-la-la-la-la, tra-la-la-la-la.

'Tis ridiculous, venomous rant.

—(Stockton Mail.)

A Double Responsibility.

Chicago Tribune.

Embarrassed Young Man. Have you—er—got any cradles?

Furniture Dealer. Yes, sir. (Becoming still more embarrassed.) In cases where—where—when it wasn't just—just what you expected, you know, and—er—you have to buy cradles, you know, it is customary to buy two cradles—or—er—one cradle big enough for both of 'em.

And Yet It Was American.

The birth notice of what is said to be the first Dutch baby born in the San Luis Valley recently appeared in a paper published at Alamosa, Colo. The notice was written by a Dane, "set up" by a Mormon printer, the proof was read by an American, the type was placed in the "form" by a German, and a Mexican printed the paper.

## Last Month

We sold on the Pacific Coast over 70,000 cans of Cleveland's baking powder, that means Cleveland's baking powder has tens of thousands of friends where a year ago it was hardly known, and to-day no baking powder is growing so rapidly in public favor.

This has been done not by attacking others in the same business or by publishing scurrilous notices in the newspapers at so much a line or by mere advertising (for competitors have spent money lavishly in advertising against us), but by the true merit and value of the article itself.

We believe that our present business is simply an earnest of good things to come, for every thrifty housewife, who once uses Cleveland's baking powder is sure to keep on using it, and sooner or later will recommend it to her friends.

Cleveland Baking Powder Co., New York.

P. S. In using Cleveland's baking powder, be sure to remember that it is stronger than others and less of it is required for the same baking. For the best results, a rounded teaspoonful does as much as a heaping teaspoonful of others.

## RANCHERS! HOGS WANTED!

—BY—

The Cudahy Packing Company  
ON JULY FIRST, 1893,

By Which Time Our

## PACKING HOUSE,

With a Killing Capacity Of

150,000 HOGS ANNUALLY

Will Be Completed.

WE require 500 Hogs daily in order to operate our present plant to its full capacity, and are prepared to increase it to any extent necessary to care for all the hogs that may be offered us.

We solicit correspondence both from those wanting hogs for breeding purposes and from those having thoroughbred breeding stock for sale.

Information furnished regarding the successful breeding and growing of hogs.

THE CUDAHY PACKING COMPANY, Los Angeles, Cal.

—Packers of the Celebrated—

"REX" Brand of Hams, Bacon, Lard, Canned Meats, and EXTRACT OF BEEF.

## East Whittier!

A good many lots have been sold in East Whittier in the last 30 days. All are to be improved. The acreage of lemons and oranges, mostly lemons, put out in the next sixty days will run up into the hundreds.

We have without question the finest location and soil for lemons of any locality in Southern California. Cahuenga not excepted, as we have plenty of water while they have not.

We Have Some Fine Ten-Acre Tracts

Still on sale, though they are going rapidly, and choice will soon be limited. Come out during February and make your selection and be ready for March putting in of trees. A lemon orchard started now will in five years produce a splendid income. There is no danger of over-production of lemons. California can not as yet supply her own demand—no danger of having to give them away during your lifetime.

The East Whittier Land & Water Co.

Give liberal time. Only 7 per cent interest. Best water and finest water system. You buy your water and land together and pay no big rate for domestic water. Don't fall to come and look over these lands. You can't get such lands elsewhere for double our price.

For information, folders, etc., call on  
S. K. LINDLEY, No. 106 S. Broadway, Los Angeles.

143 SOUTH SPRING ST.  
LOS ANGELES, - - - - - CAL.  
Branch of San Francisco.

Today the League of American Wheelmen will hold a constitutional convention in Philadelphia.

A new class to be known as semi-professionals as distinguished from amateurs and professionals will probably be created, and the Southern delegates will try to secure a rule excluding colored applicants from membership in the league. An international race meet is booked for Chicago next August.

Meet your friends at the Kan-Koo, the depot of curios. We are constantly receiving new and interesting curios from Mexico, Japan, China and California. These are for sale, and we mark them so they will sell quickly and be replaced by others. No fancy profits made at

KAN-KOO,  
110 S. Spring st., opp. Nadeau.

# Hamburger & Sons

Peoples Store  
SAFEST PLACE TO TRADE

## SHOES.

We received yesterday a new invoice of our celebrated Dongola Kid, patent leather slip \$2.50 shoes. These are trade winners. For the price there never was a better shoe built. We have a beautiful line of ladies' shoes at \$3.50 and another line at \$5. We call your particular attention to these because they are meritorious and splendid value for the price.

Our line of men's shoes starting at \$3 for an all-calf shoe, not real calf on split leather, and rising at intervals of 50c a pair for the different qualities until you strike Hanan & Sons' \$8 that we are now selling at \$6. We are overloaded in men's shoes and are selling them at actual cost.

We are pushing our shoe department to the front, and if meritorious footwear at proper prices interests you, you will facilitate us in our task.

## Men's Furnishings

Too much cannot be said for this department. You can buy laundry shirts from 50c, or one for \$1.50. The one at 50c is equal to any 75c shirt in this town. It is laundered as well as the \$1.50 one. Considering that you pay 10c for laundering a shirt, any sort of a shirt ought to be very reasonable at 40c, which would be its cost unlaundered.

We are the sole agents for the line of "Never Rip" Overshirts in cotton and wool, and comprise all sorts of working shirts, tourists and negligees. The manufacturer guarantees that if they rip with reasonable wear, we will refund the money. We are selling two lines of men's underwear at \$1: it is the natural gray, full fashioned, no seams; intrinsic value \$2.50; the drawers are shaped. The other is a line of Vienna underwear which we considered a special value at \$1.50; at which we sold them. Men's light and dark tecks, scarfs and four-in-hands, 50c, in silk, crepe and satin effects, large in size, and made of handsome materials, intended to retail from 75c to \$1.

## Dress Goods.

Every express brings us new effects, and they are perfectly lovely in design and quality; we have received some French pattern suits, exclusive novelties, one suit of a kind, no duplicates. A lady purchasing from us will not be confronted with her double. These patterns come in wool and silk-and-wool, with neat, exquisite designs, and in two-toned and variegated effects. We have marked them with a view to showing you that we can sell the finest goods manufactured, and at prices that will convince you at once that we are headstrong for novelties and dress goods. Besides the novelties shown in dress goods we have received some of the best values that it has ever been our lot to handle in medium-priced dress goods. We are showing some very handsome effects at 50c; all dress goods below that price will be found at our domestic dress goods counter. We have received some new challores, our stock is entirely new as we did not carry over a single piece, and no old chestnuts will be worked off. Our dress goods stock was so reduced that we really felt ashamed of the bare condition of our fixtures. Our buyers have instructions to fill us up with everything from A to Z.

## SILKS.

For six months we have been selling Cheney Bros.' silks at 75c a yard. The Greatest Dress Goods House in Los Angeles advertises them for \$1.00, but we have a value that beats even Cheney Bros.' at 75c; they are in our window at 50c. It is the best silk for the money that you ever bought in your life at any time, at any place, or from any one. The patterns are the newest, and is the best value today in the United States. You will find in our silk stock this season a large variety of the newest things in novelties and staples. The variety, the quality and the price will bring the trade.

## DOMESTICS

We don't find it necessary to lie to the public to do business. We don't have to tell you that we do four times as much business as any other house in town. Our business is done upon the variety, the quality and the price of our merchandise. We received yesterday by express a line of over crinkled Scotch Ginghams; we have priced them at 37 1/2c a yard; you will find them elsewhere at 50c; they are perfect beauties; we would be pleased to have you see them.

We don't crowd about our Linen Department, for it is no better than any other in the house, but we sell the largest hotels throughout the country their linens, and that is pretty fair evidence of the fact that we are able to sell you. We have two or three different styles of Flannel-ettes, ranging in price from 10 to 15c a yard. Our line of Scotch Ginghams at 20c a yard, is sold by our San Francisco house at 25c.

In Prints and Cotton Dress Goods of all sorts we have received cases of all the new designs and materials, and
